

Current Waterlogging Situation of Dhaka City

Dhaka, the capital city of Bangladesh, has been grappling with severe waterlogging problems for years, leading to significant challenges for its residents and urban infrastructure.

In your assignment, analyze the causes of waterlogging in Dhaka City. Discuss the consequences of prolonged waterlogging. Include authentic pictures to illustrate the situation and add 1/2 expert opinions in your answer to support your analysis. These opinions should be presented as quotes. Additionally, propose and evaluate potential remedies/own opinion for the waterlogging problem in Dhaka City.

[Marks breakdown: Introduction,Causes, Consequences: 1+2+2 marks. Pictures, expert opinion, remedies/own opinion: 5 marks. **Total marks = 10]**

Note: You can collect data from authentic sources, i.e. online journals, newspapers or other daily published hardcopy newspapers.

Submission Deadline: 17 October, (11: 59 PM)
